

**BEASTYC10  
SPEAKER PRO TEMPORE  
93RD CONGRESS**

**NOTICE OF RESIGNATION**

To whom it may concern,

It is with great sadness that I announce my departure from my seat as Speaker Pro Tempore, USCP Board, House Judiciary, and Representative. It has been a very interesting period of time to say the absolute least. When I was initially sworn in on February 18th, I had no idea how much I had gotten into. I have been a Representative in the past, notably the 9th Congress. I can say that back then, politics were not on the level that it has become today. Let me clarify this is far from my reason for resignation.

I will attempt to keep things short, beginning with the acknowledgement that I have done a good amount for the people during my most recent time as a representative. This includes proposing the current revised DC Charter, as well as pushing for legislation that has proven to balance, and help community members. I have tried my best to keep bipartisan relations even during the worst moments of the latest party conflicts.

I would like to further address that this resignation has nothing to do with actions being completed within the roleplay, nor does it have to do with any conflicts I may have with fellow politicians. I am solely resigning due to lost interest in the roleplay itself.

Special thanks to everyone in the community that has supported my last two terms in the House of Representatives.

Warm regards,

Former Speaker Pro Tempore  
93rd United States Congress
